SERVICE OFFERING!

In-House Subscription Plan: In-Office Subscription Service to our internet-based Practice Management and Patient Scheduling with full reporting. Available add-on features include Auto-Remit and E-Verification.

Full-Service Plans:

White Service: Similar to traditional outsourced medical billing. You scan your daily encounters and patient information, upload into our system, and we handle all the back-end billing and collection processes. You receive reporting on a monthly basis with a full slate of customizable billing, production, receivable, referral, and collection reports.

Blue Service: Same offering as the White Service, but we add the powerful real-time internet-based reporting features from the Practice Management system so you can follow-up on our progress and assure that we are working as hard as you are!

Gold Service: Fully internet-based outsourced medical billing offering all features and capabilities including Patient Scheduling, Full Reporting, Data and Document Scanning, and our unique E-Verification system....at the push of a button you can verify patient insurance information and eligibility saving hours of staff time.

Based on the speed at which the clearinghouse and commercial insurances can be set up, you can go live between two to four weeks. We have procedures in place to financially ease and minimize this transition period should this be an issue for your practice.

CLIENT TESTIMONIAL

“My previous in-house billing staff expanded their jobs to fit the time allotted and had no accountability. Perfect Practice and Jim Boyle, CPA understands how my practice is supposed to run: get my billing in, get it done, get my claims paid...no games.”

“Outsourcing my billing to Perfect Practice and Jim Boyle, CPA using an internet-based system has resulted in decreased costs, decreased payroll, decreased in-office drama and HR headaches, increased revenue, increased control over our billing, reporting, and write-offs, and increased efficiency in the scheduling.”
